

M-Zone™ SnapMop

M-Zone SnapMop Design: A flat head mop on an electropolished steel frame, the M- Zone SnapMop features a swivel joint to allow easy coverage of floors, walls and awkward corners.

Mop Head Covers: multiple fabric varieties to cope with most critical cleaning challenges feature a thin urethane foam interior completely encased in polyester – no exposed foam for faster drying time.

Available in: Flat SnapMop **PolySorb** covers MZSM11-14 & MZSM11-14IR (Irradiated) that offers additional absorbency through the fabric's unique waffle weave pattern. Flat SnapMop NovaPoly Irradiated (MZSM56-14IR).

The above covers can be laundered, re- used and will hold up to disinfectants and steam sterilization and are available Irradiated.

- Designed for controlled environments, pharmaceutical production and hospital pharmacies
- Quality features of covered foam combined with economical design
- Low Profile design
- Angled head for easy application of disinfectant or detergent
- Available in Polyester, Microfiber, MegaTex and PolySorb materials
- Launderable / Autoclavable
- Available Irradiated
